

ROTHREAD 43.32 RAIL THREADER

SPECIFICATIONS

Drive

Air-cooled 4-cycle diesel engine

Type

HATZ 1 D81 "Silent Pac", specially soundproofed design

Output

7.2 kW

Max. Lifting Capacity

13,228 lbs

Hydraulic System Operating Pressure

50/160 bar

Max. Vertical Travel

2.5 ft

Outward Expansion Force

30 kN

Inward Expansion Force

15 kN

Track Gauge

2.5 – 11.5 ft

Wheel Base

2.5 ft

Wheel Diameter Double Wheel Flanges

1 ft

Max. Traveling Speed

8 mph

Gradient

25%

Dimensions (L x W x H)

68.5 x 157.5 x 79.5"

Weight

3,527.5 lbs

For continuous gradual repositioning of rails to the desired track gauge.

BENEFITS

- High-performance rail mover
- Roof for weather protection
- LED working light
- Slewing capability
- Automatic track gauge adjustment during travel
- Auxiliary rubber wheels for turning and navigating level crossings
- Self-propelled or towable
